"Alhamdulillah, we received what we have been wanting for a long time. This is a high quality solar-powered well with very high-quality water. My son became ill because he drank very dirty water.

Thanks to the clean water from this well he has recovered. I believe you have saved our lives and the lives of our children and grandchildren. Thank you so much for your help and may Allah (ﷻ) reward you with his Jannah".

"My son is very close to my heart and can't even imagine that he is no more. Words fall short, how can I thank the organisation and donor for their help towards a struggling mother.

I always pray to Allah (ﷻ) to grant the donor success in this world and hereafter. They are our supporters, they support us, take care of us, and treat us like their own families. Thank you so much"
